Nensi Sakhiya

Senior Software Engineer | DevOps Engineer | Full Stack
Ahmedabad, Gujarat, India
+91 8347049953 nensinsakhiya@gmail.com linkedin.com/in/nensi-sakhiya-96580b208

DevOps engineer with 5+ years taking web and mobile products from build to production on AWS. Builds CI/CD pipelines, containerized services with Docker and Kubernetes, and cloud infrastructure across EC2, ECS, EKS, and Lambda. Works in Java, JavaScript, and TypeScript, with the MERN stack and React Native, covering release automation, monitoring, and application delivery.

Education

Saurashtra University
Bachelor of Computer Applications (BCA) – 66.83%

Gujarat Secondary and Higher Secondary Education Board (GSHSEB)
12th Commerce – 64.30%

Gujarat Secondary Education Board (GSEB)
10th Standard – 83.84%

Work Experience

Buzytech Technologies Pvt. Ltd. Apr 2026 – Present
Senior Software Engineer (Full-Time, Remote) *Remote*

- Developing and maintaining scalable web and mobile applications for international clients.
- Designing application architecture, implementing APIs, and optimizing application performance.
- Collaborating with cross-functional teams to deliver high-quality software solutions.
- Following Agile methodologies, conducting code reviews, and mentoring junior developers.

Budventure Technologies Pvt. Ltd. Feb 2025 – Apr 2026
Senior Software Engineer *Ahmedabad, Gujarat, India*

- Developed and maintained scalable full-stack web applications using Next.js, Node.js, and PostgreSQL.
- Designed and implemented RESTful APIs, backend services, and database architectures for enterprise-grade applications.
- Deployed applications on AWS EC2 and supported cloud releases for production workloads.
- Developed and maintained cross-platform mobile applications using React Native.
- Integrated third-party services, authentication systems, and payment gateways into web and mobile applications.
- Collaborated with product managers, designers, and developers to deliver software using Agile methodologies.

PLUSINFOSYS Apr 2024 – Jan 2025
Software Engineer *Ahmedabad, Gujarat, India*

- Developed and enhanced web and mobile applications based on client requirements.
- Implemented new features, resolved production issues, and improved application performance.
- Integrated APIs and optimized application workflows to improve user experience.
- Collaborated with development teams to ensure timely delivery of software solutions.

TRooTech Business Solutions Pvt. Ltd. Nov 2022 – Feb 2024
Software Engineer (React Native Developer) *Ahmedabad, Gujarat, India*

- Developed and maintained cross-platform mobile applications using React Native.
- Integrated GraphQL and REST APIs for communication between mobile applications and backend services.
- Implemented reusable components, state management, and responsive user interfaces.
- Optimized application performance, debugged production issues, and improved user experience.
- Worked with UI/UX designers and backend teams to deliver scalable mobile solutions.

Metizsoft Solutions Pvt. Ltd. Sep 2021 – Nov 2022
Junior Software Engineer (React Native Developer) *Ahmedabad, Gujarat, India*

- Developed Android and React Native applications for multiple client projects.
- Built responsive mobile interfaces and integrated REST APIs.

- Implemented application features, bug fixes, and performance improvements.
- Participated in testing, deployment, and maintenance throughout the development lifecycle.

TOPS Technologies Pvt. Ltd. Nov 2020 – Mar 2021

Internship Trainee (Android Development) *Rajkot, Gujarat, India*

- Completed professional Android development training focused on Java and the Android SDK.
- Developed sample Android applications and learned mobile application architecture.
- Gained hands-on experience debugging, testing, and deploying Android applications.

Projects

DocForUs – AI Healthcare Platform | *MERN, AI Healthcare Chatbot, RAG, Pinecone, Node.js, AWS ECS*

- Built the MERN platform for DocForUs, an AI healthcare product whose main experience is an AI healthcare chatbot for medical-information questions.
- Implemented chat sessions, document upload, and the retrieval services the chatbot uses to pull relevant healthcare passages before an answer is generated.
- Connected the chatbot to a Pinecone vector index and large language models so replies are grounded in the indexed medical documents.
- Developed secure REST APIs, role-based access control, MongoDB-backed services, and cloud-native microservices for chat, documents, and users.
- Containerized the application with Docker and deployed it on AWS ECS with GitHub Actions CI/CD, monitoring, and production performance tuning.

AUM Pharmacy – Enterprise E-Commerce Platform | *Next.js, Node.js, MongoDB, AWS*

- Developed a scalable e-commerce platform cataloging over 600,000 products.
- Optimized database queries and search performance for high-volume traffic.
- Built secure REST APIs, automated cloud deployments, and CI/CD pipelines.
- Improved response times with caching, infrastructure tuning, and AWS scalability.

Pulse CRM – Multi-Organization CRM | *Next.js, Node.js, React Native, MongoDB, SQL*

- Developed a CRM for multiple organizations, including leads, contacts, sales pipelines, and team assignment.
- Integrated IVR telephony, the WhatsApp Business API, and email automation.
- Shipped companion Android and iOS applications with React Native.
- Built analytics dashboards and role-based administration.

Zappfresh – Food Ordering & Delivery | *React, React Native, Node.js, MongoDB, Socket.IO*

- **Applications:** Customer App (Android) | Customer App (iOS) | Rider App | Sales App | Partner App
- Developed the food-ordering ecosystem across web, Android, and iOS, including customer, rider, and administration portals.
- Implemented real-time rider tracking with Socket.IO, GPS, geofencing, and live order status.
- Built cart, checkout, payment gateways, push notifications, discounts, coupons, and inventory management.
- Delivered sales and partner applications for retailer onboarding, bulk orders, and procurement.
- Optimized platform scalability, database performance, and real-time communication for production order volume.

Welzaa Mental Health Platform | *React Native, Next.js, Node.js, PostgreSQL, AWS*

- **Website:** https://welzaa.com
- Developed the mobile application, admin panel, and backend for counseling, matching, scheduling, and payments.
- Built REST APIs, the PostgreSQL schema, administration dashboards, and content management on AWS.
- Delivered authentication, notifications, session tracking, and platform operations.

Evify – Rider, Fleet & Smart Mobility | *React Native, Node.js, AWS Lambda, IoT, MongoDB*

- **Applications:** Rider App | Team App (Android) | Team App (iOS)
- Developed rider and team mobile apps for delivery, attendance, salary, and role-based fleet operations.
- Integrated Bluetooth IoT devices for vehicle access, telemetry, and live GPS tracking.
- Designed the cloud backend with AWS Lambda, IoT ingestion, monitoring, and operations dashboards.

- Implemented attendance, reporting, and third-party fleet-tracking integrations.
- Tuned the AWS infrastructure for scalability, security, reliability, and high availability of live fleet operations.

Tourigen Travel Experience Platform | *React Native, Redux Thunk, Axios*

- **Applications:** Android | iOS
- Developed a travel booking and experience platform for Android and iOS.
- Implemented authentication, journey planning, guest management, favorites, search, filtering, and booking.
- Integrated backend APIs with Axios and managed application state with Redux Thunk.
- Optimized performance and user experience across both mobile platforms.

PMPeople Project Management Platform | *React Native, Node.js, REST APIs*

- **Applications:** Android | iOS
- Developed enterprise mobile features for project management, collaboration, and workflow tracking.
- Implemented project planning, resource management, team collaboration, reporting, and task management.
- Integrated backend APIs and improved performance on Android and iOS.

Technical Skills

Programming Languages: Java, JavaScript, TypeScript, HTML5, CSS3
DevOps & Infrastructure: Docker, Docker Compose, Kubernetes, Amazon ECS, Amazon EKS, CI/CD Pipelines, GitHub Actions, Terraform, Nginx, Linux, PM2
Cloud Platforms: Amazon Web Services (AWS), Google Cloud Platform (GCP), Microsoft Azure
AWS Services: EC2, ECS, EKS, Lambda, API Gateway, S3, CloudFront, CloudWatch, IAM, RDS, DynamoDB, DocumentDB, Elastic Load Balancer, ECR, Route 53
Backend: Java, Node.js, Express.js, NestJS, REST APIs, GraphQL, WebSockets, Socket.IO, Microservices, JSON
Databases: MongoDB, PostgreSQL, MySQL, Redis, SQLite, Firebase Firestore, DynamoDB, Amazon DocumentDB
Security: JWT, OAuth 2.0, OpenID Connect (OIDC), Role-Based Access Control (RBAC), HTTPS, API Security, IAM Policies
Frontend: React.js, Next.js, Angular, Vue.js, Tailwind CSS, Bootstrap
Mobile Development: React Native CLI, React Native Expo, Android Development, Cross-Platform Mobile Apps, React Navigation
State Management: Redux, Redux Thunk, Redux Toolkit, Context API, React Hooks
Mobile Features: Push Notifications, Camera Integration, Google Maps, Google Places API, Geolocation, Geofencing, Deep Linking, Bluetooth, Payment Gateway Integration
Firebase & Maps: Firebase Authentication, Cloud Messaging (FCM), Analytics, Crashlytics, Remote Config, A/B Testing, Firestore, Google Maps API
Tools: Git, GitHub, Bitbucket, Docker Compose, GitHub Actions, Postman, Swagger/OpenAPI, Jira, Visual Studio Code, Android Studio, Xcode, NPM, Yarn
Testing & Debugging: API Testing, Performance Optimization, CloudWatch Monitoring, React Native Debugger, Chrome DevTools
Practices: Agile, Scrum, SDLC, CI/CD, Code Reviews, Version Control, Technical Mentoring
